

What are Mr Numbervator's Active Maths Mats?

Our research over the last year has shown us that at KS2 you really want motivational maths resources that are affordable and can be used for varied activities. So we've consulted numeracy expert Isaac Anoom (aka Mr Numbervator). Working together, we've come up with three large format mats to stimulate your pupils and help them apply essential National Numeracy Strategy skills in a way that fits in neatly with The Primary Strategy. Durable, safe and easy to store, these three beautifully illustrated mats:

- * Raise energy levels, build confidence and develop problem solving skills in your Daily Maths Lesson
- * Offer whole class and group games that address challenging topics:
 - Problem solving with money
 - Understanding decimals, fractions and percentages
- * Are lightweight, pack away easily and are easy to fit into a corner of your classroom or school hall
- * Comprise teacher's notes full of tried and tested games and easy-to-manage differentiation
- * Are tough enough for outside use on a sunny day
- * Have a non-slip surface for added safety
- * Encourage speaking, listening and communication skills
- * Have an open-ended format (you can adapt your own game ideas to a larger scale) and comprise several different activities – so you get your money's worth!

Mr Numbervator's Active Equivalents*

Freed up from board work and workbooks, now your pupils can enjoy finding equivalents. They spin one of four special spinners to select their fraction, decimal or percentage, then move across the mat (or mark their choice with a bean bag) to find the equivalent allocated by a fourth spinner! Following Mr Numbervator's step-by-step teacher's notes, you'll marvel at your pupils' dedication in solving various equivalence problems.

Size: The unfolded mat is 1.5m²

Contents: Vinyl mat, four spinners, teacher's activities, sand timer, set of six coloured bean bags

14691 Each £39.99

Actual size 1.5m²

* Very occasionally, delivery restrictions may apply. Please see our main catalogue or website www.philipandtacey.com for further details.

"Great idea!"

Injecting energy into maths teaching

Isaac Anoom:
Mr Numbervator

Formerly a primary school teacher, **Isaac Anoom** invented the character **Mr Numbervator** in response to poor SATs results in Maths. His role is to engage the mind and attention of children by involving them in interactive, hands-on activities, open questions and probing suggestions. As Mr Numbervator, Isaac launched **Maths Year 2000** for the DfES, has had

a regular slot on GMTV to raise awareness of the importance of Maths, and currently tours schools around the country presenting inspirational days to teachers and holding lively interactive evening seminars for parents who feel that they can't help their children with their maths homework. Look out for Mr Numbervator this year on CBBC's Maths Channel!

Mr Numbervator's Active Maths Mats

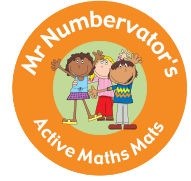

Mr Numbervator's Money Matters*

As you lay out Mr Numbervator's Money Matters mats, you'll see a selection of realistic UK or Euro coins and notes represented on these colourful non-slip surfaces. There's a variety of games to play that make use of four spinners that dictate the amounts children need to calculate. All games have a focus on coin and note recognition and problem solving – with the added element of movement and teamwork. Mr Numbervator's teacher's notes ensure your pupils stay focused and on task – they'll be having so much fun they may not be aware how much they are learning! There's a sterling version and, for European International Schools – a Euros version too!

Size: The unfolded mat is 1.5m²
Contents: Vinyl mat, four spinners, teacher's activities, sand timer, set of six coloured bean bags

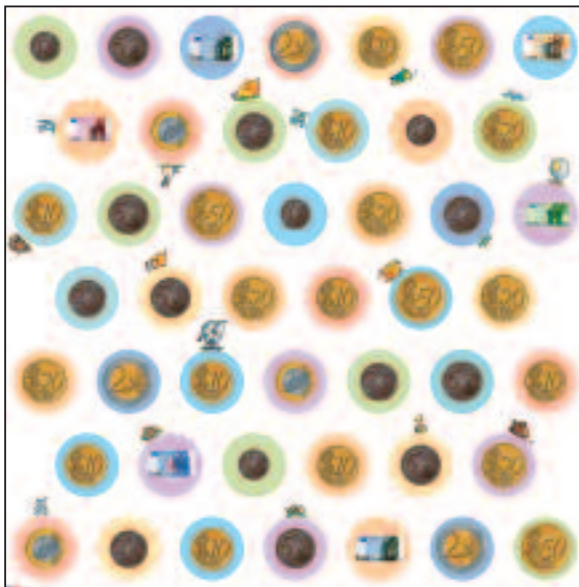

Mr Numbervator's Money Matters: Sterling

Using the mats, your pupils' faces will light up as they employ teamwork to solve problems. And the colourful presentation of differentiated visuo-kinaesthetic activities ensures that even less confident children will feel able to join in!

- 14692 Sterling Each £39.99
- 14693 Euros Each £39.99

Mr Numbervator's Money Matters: Euros
